ORIENTAL GLORY

GOOD INFORMATION

We are large growers and not jobbers.

We try to please our customers at all times.

We do not buy dahlias of failing or bankrupt growers to fill our orders.

Dahlia bulbs shipped by express are rated as second class and are listed as perishable.

The express company stands all loss by freeze, or damaged otherwise, therefore do not hesitate to have orders shipped in cold weather.

Express on dahlia bulbs is very low, often it is much less than parcel post or freight.

All freight and parcel post shipments travel at purchaser's risk as freight companies do not insure against freeze. Freight shipments travel slow and are handled rough. First-class freight costs about the same as express.

Be sure your express agent has given you second-class rates. If unable to get second-class, notify us and we will assist you.

Indianapolis: America's greatest inland city, located 60 miles from center of population of United States. It is the meeting place of seventeen steam railroads and 43 motor express and freight companies. It is the most easily accessible city in the United States from all parts of the country—the crossroads of America.

Express trains leave hourly day and night including Sundays and holidays.

Let us have your **RUSH** order.

We thank our customers for all past orders and solicit our share of your future trade.

If in Indianapolis during blooming season, visit our display of 12 acres at 6300 South Meridian Street, Indianapolis, Ind.
